

Teacher's Note

- Check for accuracy in student's drawings.
- Has he/she followed the instructions correctly?
- Was the student able to read the instructions by him/her self?

The aim of this worksheet is for students to follow written instructions. If they can not do this, read the instructions out loud. Can they remember and follow the oral instructions?

Suggested Activities:

- ❖ Make small groups with one team leader who will tell the others what to draw. Can they follow the instructions? Were the instructions given by their team leader clear and imaginative? E.g. Draw a pink cat. Draw a red and blue flower. Swap team leaders after several drawing attempts.
