

Name:

Collage is a French word from *coller*.
That means to stick or glue.

COLLAGE

To make a collage you need all sorts of bits and pieces. The more unusual things you use the better your collage will be. You could use paper, rice or string. Write three more things you could use to make your collage great.

--	--	--

When you cut, tear or rip the bits of paper for your collage you need to glue them on some thick cardboard. The best thing is to draw something first and then glue all your bits and pieces on to make it look great. You could draw an owl or a dog. Write three more things you could draw for your collage.

--	--	--

You could also make a letter collage. You cut out letters of all sizes and glue them on. Where could you get letters from, for your collage?

--

You could make a collage with someone else. Write the names of three other people to make your collage with.

--	--	--

YOUR FINAL TASK IS TO MAKE A COLLAGE
