

## *Teacher's Note*

- Check students story for originality and grammar.
- Help students locate natural or recycled materials to make their crab. Hang the crabs from the ceiling or hang them on the wall.

### *Suggested Activities:*

- ❖ Locate library books that have pictures and facts about crabs. Discuss these with the students.
- ❖ Obtain and watch a video that shows the life of crabs and other water creatures.
- ❖ Crab hunting is great fun if you can organize a trip to the beach, inlet or river where crabs frequent the area.
- ❖ Buy a crab from a fish market for students to observe, touch and even dissect.
- ❖ Observe some parts of a crab under a microscope.
- ❖ Write and act a short play based upon the life of Mrs. Crab.
