- Check if students have written the words in German and English properly.

### *Suggested Activities:*

- ❖ Find pictures of the words on the worksheet in old magazines. Make a large poster with the students and write the German word underneath.
- ❖ Teach your students to count in German. (ein, zwei, drei, vier, fünf, sechs, sieben, acht, neun, zehn, elf, zwölf.)
- ❖ Read the German words out loud and have students repeat them.
- ❖ Obtain a very simple children's book written in German. Read this to your students. Can they tell from the pictures what the story is about? Ask your local librarian to order a children's book which is written in German from another library if there is none in stock.
