

Teacher's Note

Answers:

- 112mm.
- 11.2cm.
- 1725
- 175
- 28
- 125
- 24

Suggested Activities:

- ❖ Do some practical maths with your students. E.g. Ask them to count the chairs in class. Ask them how many there would be if they had one quarter of them.
- ❖ Ask two students to measure the length of a windowsill. Add all the windowsills, how long would they be all together?
- ❖ Ask two students to measure the length of the tables. Add all the tables, how long would all the tables be?
- ❖ Ask students to guess how many square metres their playground is. Go outside and have students measure it as accurately as possible. Were they close?
