

Teacher's Note

- 10cm
- 6cm
- 7.5cm
- 12.5cm
- Help students to measure the width of the classroom.
- Check students answers after they have measured the book.
- Was student's guess of their height reasonable?
- Check their actual height.
- Check clocks.

Suggested Activities:

- ❖ Take a rough measurement of the sports grounds. Ask students to take really big steps. How many steps before they have gone all the way around?
- ❖ Ask students to guess how many students attend their school. Give them the correct answer afterwards. Was anybody close to the correct answer?
- ❖ Obtain bath room scales. First ask students to guess their weight. Then ask them to weigh on the scales. Were they close to the actual weight?
- ❖ Visit: <http://www.cut-the-knot.com/games.html>
