

Teacher's Note

Answers:

What number comes before...

8999 - 9000	3099 - 3100	1109 - 1110
8759 - 8760	2399 - 2400	3029 - 3030

What number comes after...

2999 - 3000	1001 - 1002	7878 - 7879
4500 - 4501	9999 - 10000	6548 - 6549

- 4 trucks carry 18 tons.

Halve the following numbers.

836 - 418	146 - 73	58 - 29
284 - 142	76 - 38	2300 - 1150

Double the following numbers.

425 - 850	74 - 148	99 - 198
36 - 72	240 - 480	54 - 108

Suggested Activities:

- ❖ Obtain several packs of playing cards. Shuffle the pack and ask students to arrange all the cards in order. How quick can they do this?
- ❖ Make several small groups of students. Hand each group 2 dice. Ask them to take turns at rolling the dice. Each time the dice are rolled the students must add the numbers rolled to the previous numbers. Which group reaches one hundred first? Students could use head calculations but to check their additions pen and paper is recommended.
