

Teacher's Note

Answers:

- Teacher, please check if students have circled the correct numbers.

007	032	085	091	100	123	140	145	170
212	232	305	321	322	332	341	342	345
352	356	367	432	445	453	455	478	510
541	543	554	561	645	654	657	665	710
745	763	765	776	777	778	780	787	789
808	832	854	870	875	876	889	897	898
901	907	945	946	973	974	980	986	987

Suggested Activities:

- ❖ Ask each student to make number cards from 225 to 250 (or any numbers you choose). Shuffle the cards. How quickly can each student place them in the correct order again?
- ❖ Ask students to place two number cards in front of themselves and add. Check their answer. Repeat the exercise, only ask the students to place the larger number above the lower number and subtract. Repeat this several times for several days. (Try multiplication for gifted students)
- ❖ Visit: <http://www.mathsnet.net/>

Learning Area: Maths **Strands:** WM, N. **Substrands:** WM1,2,3,4. N1,2,3,4.
Overarching: 1,2,3,4,5,6.
