

Name _____

Type the numbers from the story on a calculator. Turn the calculator upside down and the numbers become words. Replace the numbers with the words displaying on your calculator to read the story.

*Example: Write 35006 on a calculator then turn it upside down and it says
GOOSE.*

7738 6615 51 a very 618 lady.

345 always 5604 into all the 35006 pie and 535508 us around.

345 51 not a nice lady at all said 7718 who 51 the 3045 man.

34 said 345 comes to buy 53045 and 535007 them, then comes back and

535508 7718 around for selling the wrong 53045 to her.

Look at her 618 5637 said 3716.

I bet 345 couldn't even do three 637 racing.

the test came to 335 if 345 could.

7738 was with 7718 and there was a 618 prize at the end.

7738 and 7718 did win and the town gave 7738 a new pair of 53045.

345 liked them very much and felt guilty and decided not to 38 a 5508 any more.

The end
