

Teacher's Note

- Check student's answers and if they have placed realistic values on the second hand goods.
- Check their calculations.
- Discuss strategic places in the local area where students could display their advertising poster.

Suggested Activities:

- ❖ Organize a garage sale to raise funds for a school project, local hospital or other organization that needs extra money for their projects.
- ❖ List some organizations that regularly raise funds for their projects. How many do students know and why do these organizations raise funds?
- ❖ Hand students a weekend paper where garage sales are advertised. Can they locate the section in the paper? How many garage sales are advertised for that weekend or week?
- ❖ Ask students to locate the advertised garage sales in a street directory.
- ❖ For garage sale hints and tips visit:
