

Teacher's Note

Answers:

Blue & Red = Purple

Red & Yellow = Orange

Blue & Yellow = Green

- White & black are not colours.
- Mixing white with a colour makes the colour a lighter shade.

Suggested Activities:

- ❖ Have students mix red, blue and yellow paint to achieve other colours.
- ❖ Students could write down what colours they mixed to obtain another colour.
- ❖ Have students mix primary colours first, then secondary colours to obtain tertiary colours.
- ❖ Visit: <http://www.yahooligans.com/>
