

Name _____

SYMMETRY

When you cut an object in half and it has two identical sides afterwards, it is called a symmetrical object.

Draw only one half of the following objects. When you have finished your half of the drawing, swap your worksheet with someone else in your class and have them draw the other half. Try make your drawings challenging and of an intricate design.

Beetle		Wagon wheel		Computer	
Butterfly		Cupboard		Teddy bear	
Windmill		Ladybird		Spider
