

Name: _____

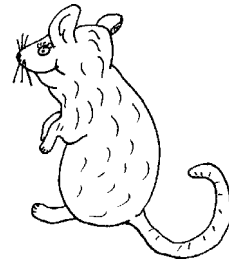

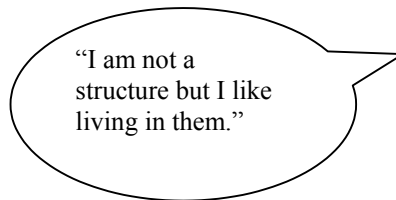

Take a good look around. What do you see?

Your task is to draw something architectural but you must fill your whole page with your drawing. Is it a corner in your classroom or a wall with a big window? Maybe you see an old rain water tank or a building across the road. Whatever it is you see you must draw with as much detail as possible. Remember, it must be a structure of some kind.

Write below what you are going to draw before you begin your drawing.

NOTE:

- ❖ Use only black pencil
- ❖ Try showing shadows and light
