

ANSWER KEY - COLOURS

What are the three primary colours? **Red, Blue and Yellow**

Red and Blue make? **Purple**

Yellow and blue make? **Green**

Red and yellow make? **Orange**

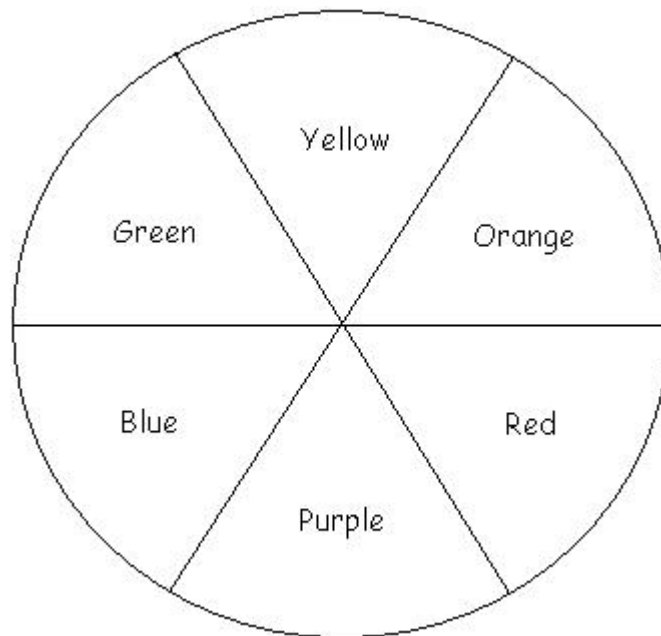

What are the three secondary colours? **Orange, Green and Purple**

How many colours are in the rainbow? **Seven**

If the three primary colours were mixed what color would it usually be? **Black**

What colours can be made out of Red, Blue and yellow? **Every colour or All**

These are the colours that should go into the colour wheel.

Suggested Activities:

1. Enlarge the colour wheel and make it poster size to display in the classroom.
2. Make a colour chart using the different colours such as warm and cool blues, warm and cool reds, and warm and cool yellows.
3. Make a rainbow using the correct colours.
4. Look at tertiary colours.

Outcomes:

Art – understand colours, primary and secondary
