Suggested Activities:

- ❖ Sit in a circle and have one student start the game by saying a word. Each following student must say a word that rhymes. How many rhyming words can they come up with? You'll probably get some silly but funny ones popping up. It's all part of the game and learning.
- ❖ Split the class in small groups. Give each group a word written on a piece of paper. How many rhyming words can each group write down in 3 minutes? The group with the most words wins.
- ❖ Try making funny sentences using several rhyming words. E.g. The cat with the hat sat on the mat looking at the flat rat. How many sentences can the students make?
