An Internet Activity: What is a fractional part?

It is a part or portion of a whole.

Expressed as a fraction ($\frac{1}{4}$), decimal number (0.25) or percentage (25%).

Quarter of a pie can be expressed as $\frac{1}{4}$ of the pie, 0.25 of the pie or 25% of the pie.

The smallest part of the circle (pie) is one quarter.
