

Name _____

Under and over Maze

Find your way through the maze but don't get stuck in any dead ends. You can go under and over the paths but only if there is a continuing path on the other side or underneath the other path above it. The first picture shows how you can go under paths. Have fun and don't get lost.

How many paths did you go under while going through the maze? _____

How many paths did you go over while going through the maze? _____

How many dead ends are in the maze? _____

How many long routes are in the maze? _____
