*Hidden in the puzzle are 3 mammals, 2 marsupials, 2 insects, 2 reptiles,
1 monotreme and 2 birds. Can you find them all?*

There are 9 letters left in the puzzle which you did not use. Find them, what do they say?

Write all the names you found in the correct category below.
Add more names to your list if you can. Can you think of another animal classification
not mentioned here? Write it in the spare column with examples.

Mammals	Marsupials	Insects	Reptiles	Monotreme	Birds
