

Name _____

KINKY KEYBOARDS

Your Task:

Design a keyboard for a computer. It can be any crazy design as long as all the letters and numbers are in their proper places. Make a rough sketch first on this paper before drawing your design on another blank sheet of paper. Use colour to spruce up your work if you like. Don't forget to indicate where your control cable is attached to your keyboard or indicate if it is a cordless keyboard. After you have designed a keyboard on paper try to build it using natural and/or recycled materials. Put it on display and show and tell others how it works.

Draw your sketch here.

A large, empty rectangular box with a thin black border, intended for the student to draw their keyboard design.
