

Name _____

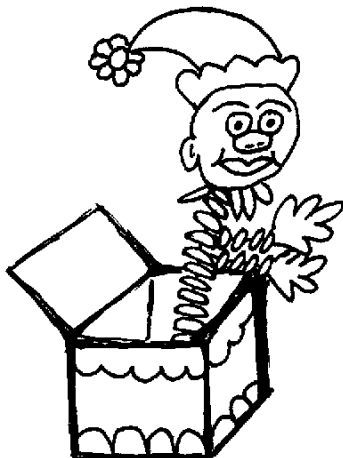

You are asked to design a fun-park. It is totally up to you what you are going to put in the fun-park and where you are going to put it.

Make a list of all the things you are going to put in your fun-park then make a rough map where you are going to place them.

You can either indicate with symbols where you want to place the equipment or you can actually draw a picture of the different fun equipment.

When you have finished designing your fun-park on paper build a miniature one with other students using natural and/or recycled materials.

Don't forget the food stalls, toilet facilities, main office for the staff and indicate pathways.
