

Name: _____

NATURAL RESOURCES

Fill in the missing words

sharpened, example, graphite, vegetation, nature, deposits, lead

Natural resources are original aspects of _____ which are unchanged by man like: water, air, sunshine, soil fertility, _____, animals and mineral _____. Natural resources are used to make other resources which we use every day. Take a pencil for _____; trees must be cut down to make wood pencils. Graphite is the marking substance used in _____ pencils. Powdered _____, clay and water are blended and made into very thin rods, dried, and finally kiln-fired. These are then inserted into the wood pencils, _____ and sold to people.

If you were to build the Opera House, list as many *natural resources* you could use? Remember that often a natural resource has been changed in order to provide the final resource.

- Design and make something using natural materials such as pebbles, sticks, nuts, grass, leaves, cones etc. Give your finished art work to someone special.
